HOW TO USE

Use this morpheme matrix to help your students practice forming and spelling words with the base element, PORT.

Begin by teaching the base element. Here is a possible script for teaching the base element PORT.

1. (Write "port" on the board.)
2. Our new base element is "port". Let's read it together. (port)
3. Port is related to a Latin word that means *to carry*.
4. (Write "portable" on the board.)
5. Watch me scoop the morphemes as I read this word.
6. (Scoop your hand under the parts as you read the word aloud.)
7. The word is PORTABLE. It means *able to be moved or carried*.
8. (Post the following words on the board for all to read in unison as you scoop your hand under each morpheme.)
 - report
 - portal
 - deport
 - export
 - import
 - porter
 - portion
 - portal

Make sure all children can see the morpheme matrix or have their own copy. Show them how to use the matrix to build words with the base element PORT.

Students can work alone or in pairs to find and record as many words as they can.
