Re: Request for funding for Reach All Readers Plus, a resource library for teaching literacy and math

Dear

I am requesting funding for a Reach All Readers Plus membership to support my literacy instruction and professional development as an educator. Reach All Readers Plus provides teachers with research-aligned teaching resources, ready-to-use lessons, and ongoing professional learning designed to make effective reading instruction easier to implement.

As a member of Reach All Readers Plus, I will receive access to:

- More than 3,000 high-quality, low-prep printable resources for literacy and math
- Over 200 pre-made phonics lessons
- Science of reading professional development
- Monthly live member meetings with guest experts
- A supportive professional community

Reach All Readers Plus is designed to save teachers valuable planning time while providing trusted resources that can be used to support students at different skill levels. Because the membership includes resources across K–3, I can select materials based on individual student needs rather than being limited to resources for a single grade level.

The professional development included with the membership also allows me to continue strengthening my knowledge of evidence-aligned literacy instruction. Science of reading roadmaps and recorded member meetings include printable certificates of completion that I can utilize for my continuing education credits.

Reach All Readers Plus was created by Anna Geiger, M.Ed., an experienced educator and creator of Reach All Readers. Anna is the author of *Reach All Readers: Using the Science of Reading to Transform Your Literacy Instruction*, hosts the Reach All Readers podcast, holds a Science of Reading Graduate Certificate from Mount St. Joseph University, and is currently pursuing a PhD in Literacy.

Cost of membership

The cost of the premium yearly membership is \$379, which includes the comprehensive reading course.

Alternatively, the cost of the standard yearly membership is \$179.

Reach All Readers also offers **group rates for schools and districts** interested in providing memberships to multiple educators.

You can learn more about the membership here: <https://reachallreaders.com/reach-all-readers-plus/>

You may also contact Anna Geiger at this email address: hello@reachallreaders.com

Thank you for considering my request. I believe Reach All Readers Plus will provide valuable resources and professional learning that will strengthen my instruction, save planning time, and help me better meet the needs of my students.

Sincerely,
